

Regulations for participating in the 43rd German Treasure Hunt Championship 2023

Only persons who have reached the age of 18 at the time of the German Treasure Hunt Championship are eligible for participation. Minors may only participate with prior written consent by and under the supervision of a parent or guardian. Children and youths up to and including the age of 16 are ranked separately from adults.

Each participant's first and last name, date of birth, country of origin and e-mail address is required in advance. This data is documented in the entry / participant list and must be signed by each participant. During personal registration on site, each participant receives a starting number, pin-on button and a bag for findings which is marked with their starting number. The starting numbers are assigned on site in the order participants register in the aforementioned list.

The organizer determines the starting time, after which the defined area can be searched by means of a metal detector. Found objects are to be collected solely in the provided bag.

Only objects distributed by the organizer are included in scoring (tokens / silver coins / gold coins). When a gold coin is found, the participant should inform a judge (calling out "gold!" is sufficient). After the award ceremony, the participants can collect their bag of findings by presenting the button with the corresponding starting number at the cash register. Each participant may then keep their bag including findings. Bags that have not been collected by 12 pm on Sunday will be disposed of by the organizer.

The event's ending is determined by the organizer. After the event has ended, no further searching is allowed. Any participants continuing to search or dig after the event has ended will be disqualified.

The bags of findings will be collected by designated persons or judges at the area of the event and are then handed over for evaluation.

Each object issued by the organizer counts as one point. **Passing on found objects to other participants or persons is prohibited and leads to disqualification.** If a participant leaves the search field, any findings as well as the issued bag must remain with a judge. **Any holes that have been dug are to be resealed as well as possible.** Improperly sealed excavation sites will negatively impact the participant's score. Any participants who, despite warnings by the judges, continue to leave excavation sites open or improperly sealed will be disqualified.

If multiple participants have the same number of points, ranking is based on the order of the participant's starting number.

Example:

Starting number	9	has	25	found objects	= 25 points
Starting number	16	also has	25	found objects	= 25 points
Starting number	104	also has	25	found objects	= 25 points

Based on the scoring example above, starting number 9 is ranked before number 16 and 16 before number 104 in the final results.
