five solid
gold coins
which can
be found
and kept!

For the past 44 years, the treasure hunter meeting Stüssel near Osburg including the German Treasure Hunter Championship has been a highlight for not only the German, but also international treasure hunter scene. In 2024, we will once again provide a varied program. From the German Treasure Hunter Championship (DSM) to lectures by field-experts, the DSM Seeker Challenge and our popular "Treasure Hunter Raffle", there's something to enjoy for everyone. As in the years before, all the well-known metal detector manufacturers will be there and detectors from each can be tried out and compared on the test field organized by "Minelab". Win the newest detectors or other valuable prizes at the RAFFLE, the DSM Seeker Challenge or the RALLYE at the German Treasure Hunter Championship 2024. The regulations for the 2024 championship have been changed in such a way that every participant can find instant-win tokens and thus have a chance to win a premium detector. Additionally, five gold coins will be buried on-site again.

See you June 7, 2024!

**Happy Treasure Hunting and best regards,
Martin, Uli and the rest of the team**
